

RecycleGuy Roll-Off Services

765-675-6200 office, 317-833-4709 cell

The 10-Yard Hauler

- 10 yard container size 11.5' x 8' x 4.5'
- 3, 5, 7, or 10 day service pricing
- Smaller truck less weight on driveway, our empty weight 5 tons theirs 17-19 tons, 108" wheel base allows better placement
- Next day or same day service per container availability
- Will work weekends and evenings to fit your schedule
- As the name says, *We Recycle as much as possible*
- Pay us with Credit Card, Check or Cash

Smaller truck, less footprint on your customer's property and the 108-inch wheelbase will allow the containers to be placed in areas where full size pickups could not even back into. If you have, a bigger job such as 60 squares of roofing put one on each side of the house to cut down on labor and faster tear-off by roofers. ***Our gross weight on your customers drive or lawn will be 8 tons, less than half of our competitions empty weight.***

Post Consumer asphalt shingles being ground & nails removed. The grindings will be reused in road building of some type, saves natural resources. Picture on right shows asphalt highway with 5% shingles as additive can go as high as 15%.
